Our tutors

- More than 90% have master's degrees or PhDs
- All are extensively screened and trained and receive robust ongoing monitoring and evaluation
- All are trusted educators with an average of 12 years of instructional experience

Support student success with expert online tutoring

Providing the help students need can be a challenge. Because students face competing demands for their time and many balance work and family with their coursework, they need flexible options for after-hours or off-campus help.

Online academic tutoring services from Smarthinking give students access to expert tutors — on-demand or by appointment — in a wide range of subjects within their field of study.

Maximize faculty resources and improve student success

Allow faculty to focus on at-risk students and other initiatives by providing an additional channel of support for students who don't need face-to-face attention or cannot make it to campus.

Research shows that online tutoring from Smarthinking positively impacts student success. You'll see higher grades, improved course completion, and increased student retention.

“

My tutor had really awesome feedback that allowed me to complete the assignment more thoroughly but still maintaining my own voice. Her explanations were very helpful and helped me understand how I can improve my writing.”

— student,

Community College

Provide help in a variety of Spanish topics

- Writing Review
- Grammar
- Pronunciation
- Culture
- History
- Literature

Our approach

Smarthinking tutors do not do the work for students. Instead, our bilingual Spanish tutors are available 24/7 to provide detailed, personalized, instructive feedback on paragraphs, essays, dialogues, presentations, exercises, and various other assignments to guide Spanish learners to deepen their understanding of the language, its conventions and expression. Tutors can toggle between English and Spanish to meet individual students' needs.

Our student satisfaction scores — as well as consistent faculty praise and feedback — show us that this approach works. Over 96% of students were pleased with the assistance they received.

How Smarthinking works

Access

Students can sign in directly from our website, from their LMS, and with integrations available from select Pearson MyLab™ & Mastering™ products. [Android™](#) and [iOS](#) apps are also available so students can sign in from their mobile devices.

Live, on-demand online tutoring

Available 24/7 year-round, Smarthinking's live tutoring sessions are conducted one-on-one within our virtual whiteboard environment, which provides real-time collaboration.

Prescheduled sessions are available and offline questions also are accepted for response within 24 hours.

Audio/video-enabled tutoring is available on a pre-scheduled basis for greater ease for Spanish-speaking students and for pronunciation, conversational skills improvement, and listening comprehension for language learners. Smarthinking also offers math and statistics support for Spanish-speaking students.
